## NEW COVID DISCHARGE INSTRUCTIONS AVAILABLE

Three new COVID-19 patient education documents from the CDC are available to print with the patient AVS starting 4/3.

- What you need to know about coronavirus disease 2019 (COVID-19)
- Share Facts about COVID-19
- Steps to help prevent the spread of COVID-19 if you are sick

- Click the green ✚ to add the appropriate documents to the AVS.
- If possible, do not print copies ahead of time for distribution since the CDC will update the information as needed.
- The link to the CDC patient education will be available in MyChart.
- The CDC patient education on COVID-19 is available in Spanish, Chinese, and English. If the patient's preferred language is documented as Spanish or Chinese, it will automatically print in the appropriate language. Otherwise it is printed in English.
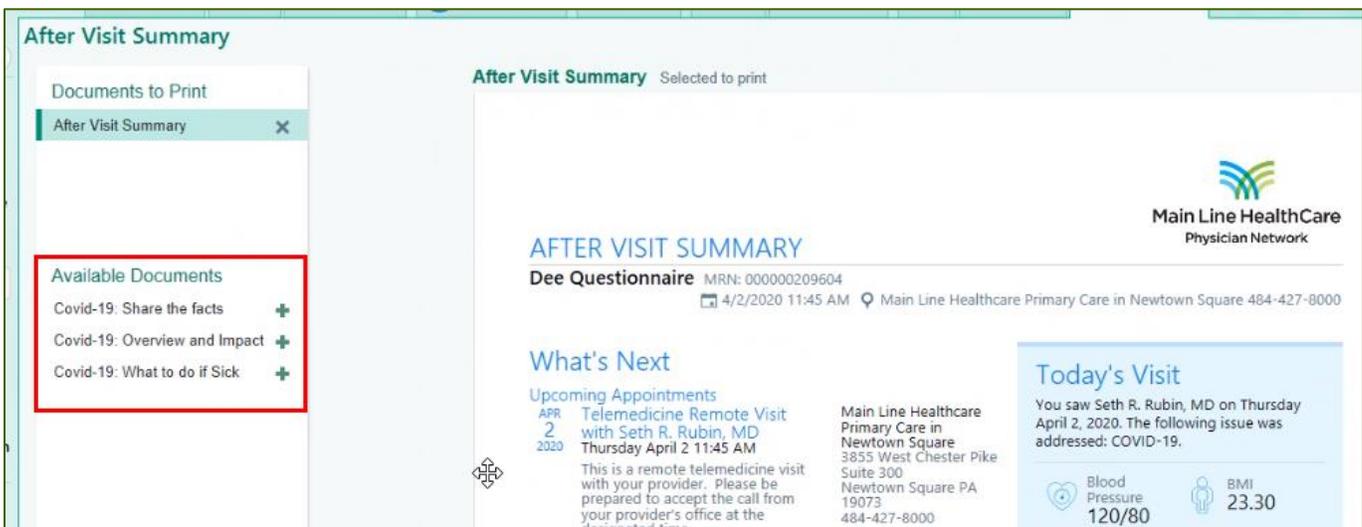

> **!** As new information is available the forms are automatically updated by the CDC. Because of this you will not be able to preview in Hyperspace. Links to each document are available on the last page of this document.
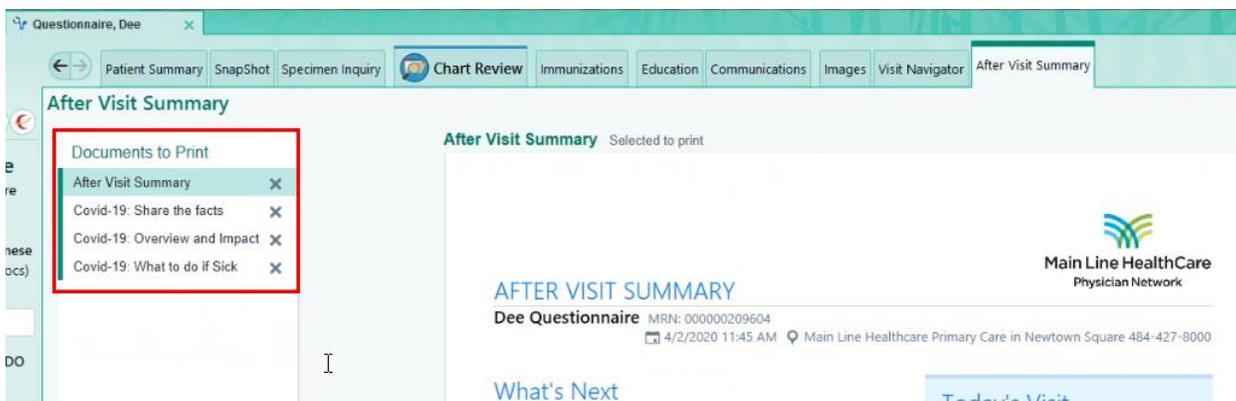

1. Use your usual workflow to access the Preview AVS screen.

2. In the preview screen, you will see three additional "Available Documents" in the sidebar.
3. Click the green ✚ next to each of the documents you feel would benefit your patient.

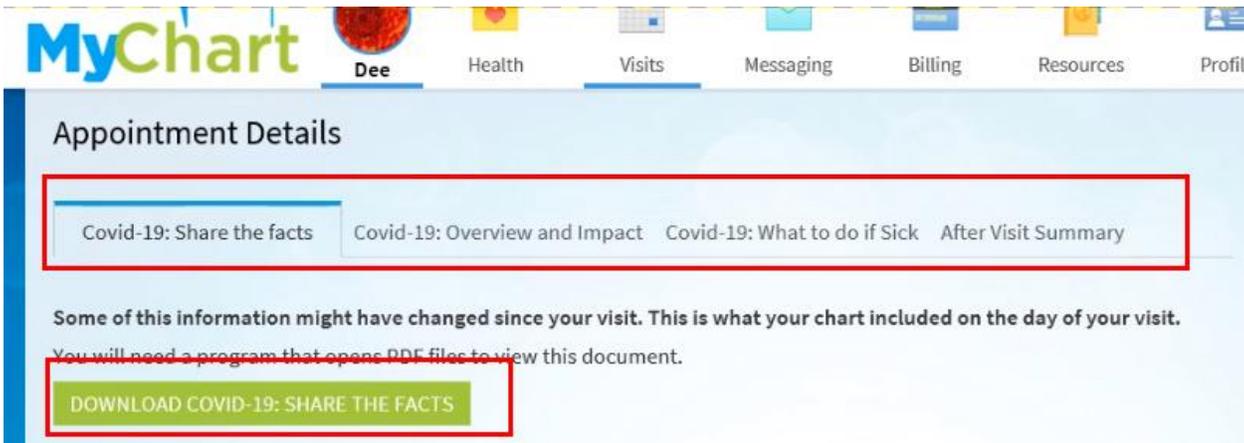

4. The documents are then visible under "Documents to Print."

5. When the provider signs the visit or clicks Print, the AVS prints along with the three additional reports. The documents can also be included by other clinicians that may be printing out the AVS.
6. If this is a Telemed or phone encounter, the AVS and COVID-19 reports will be available in MyChart.

MyChart View:

1. When the patient logs into MyChart they will see a message for the AVS
2. When the AVS is opened, the patient will see tabs for each available report.
3. When they click on the tab, they will see a link to click on to download the report and information
