Well ahead.

## NEW QUESTIONS IN CASE REQUEST ORDER

DESCRIPTION/BACKGROUND

Audience: MLHC Surgeon

You will now be required to indicate the planned length of stay for hospital outpatient surgery or surgery admit patients in the case request order.

YOUR WORKFLOW

1. Open Case Request Order – Operating Room

2. Fill in required information, including patient class.

3. You will see the two new questions as follows:

Extended Recovery Bed Needed? (23 Hours or Less Admission)	[🔍] No Yes
Anticipated Length of Stay? (Midnights)	[🖩]

4. You will be presented with an order validation check indicating which question will be required based on patient class you selected (Surgery Admit or Hospital Outpatient Surgery):

Order Validation

(!) **You can proceed and sign these orders, but the following information is missing or might require your attention:**

Anticipated Length of Stay needs to be answered for Surgery Admits

✔ Accept   ✘ Cancel

Order Validation

(!) **You can proceed and sign these orders, but the following information is missing or might require your attention:**

Extended recovery (Y/N) needs to be answered for Hospital Outpatient Surgeries

✔ Accept   ✘ Cancel
